

NAME:

Word Clouds

1. Write down a list of words that come to mind when you think of homelessness and people experiencing homelessness.
2. Go to <https://wordart.com/create>
3. Type each of the words from your word list in the table on the left hand side. Choose what size you want each word to be. If you think certain words are more important, you should make them a bigger size. As a suggestion, you might want to make the word 'homelessness' the biggest.

4. You can also change the colour, angle and font of each word or leave them as default.
5. Next, click on the 'shapes' heading and choose a shape for your word cloud. It would be good to use a shape that related to homelessness (like a house). If you can't find one you like, you can add your own image.

6. There are other options you can change in the 'fonts', 'layouts' and 'style' menus as well. However, this is not necessary.

Teacher Guide - Word Clouds

Below is an example of what a finished word cloud might look like:
